

DTR Memo

Project: Complete Me

Group Member Names: David Knott & Mike Schutte (1610 BE M1)

Project Expectations: What does each group member hope to get out of this project? Goals and expectations:

- Use recursion, 4 on functionality and strong 3's on the rest, D – improve class organization, cement TDD

Schedule Expectations: When are we available to work together and individually?

- Meet at 7am Monday and Tuesday.

Communication Expectations: How and often will we communicate? How do we keep lines of communication open?

- Updates on working features via slack. Review no-brainers, snags, and stumps in the morning.

Abilities Expectations: Technical strengths and areas for desired improvement:

- M – strength: organization, improve: TDD quality. D – strength: functionality, improve: organization

Workload Expectations: What features do we each want to work on?

- Each completes base features by Monday. Collaborate if stumped.

Workflow Expectations: Git workflow/Tools/Code Review/Reviewing Pull Requests:

- Git: individual dev branches, master together. Tools: waffle. Code review every morning.

Expectations for giving and receiving feedback:

- Straight up, quick, direct.

Agenda to discuss project launch:

-

Ideas:

- Recursive node methods. Hashes as links. Smart nodes.

Tools:

- Github, waffle, slack, VS code, pry.

Additional Notes:

- Ready to rock!
